

## CONDENSING TRAYS

### LIGHTWEIGHT CONDENSATE TRAYS

These 100% rust-free, UV stabilised, rigid, reinforced PVC condensate collection trays will fit any make of bracket. At less than 1kg, they are much easier to handle than metal trays and the tapered outlet fits a 16mm or 18mm hose pipe.

Part code	Description	Width	Length
CCT-790	Lightweight tray - small	390mm	790mm
CCT-940	Lightweight tray - large	420mm	940mm

### METAL CONDENSATE TRAYS

These metal trays have a convex profile and a recessed surface flush, drain hose adaptor, minimising the amount of standing water left in the tray. Supplied with fixing arms for mounting to all Pump House brackets. For improved corrosion resistance all metal now receives a 100% zinc plating, followed by a hard ED coating, before being finished with an external grade polyester powder coating to RAL 7032.

### FLOOR BRACKET KIT

When units are mounted at floor level, condensate discharge needs to be directed towards a drain or soakaway to avoid condensate causing a slip hazard. This floor bracket kit allows the metal tray to be mounted onto a flexi foot kit. The ASHP can then be mounted onto the bracket.
