

FLAMETECH LITE

A small portable brazing set for use in the refrigeration and air-con industry. FlameTech Lite has been designed with the installer in mind. This unique kit gives the installer a compact lightweight kit with a 2Ltr refillable Oxygen cylinder, for all those hard to reach areas.

The set utilize two gases, Oxygen along with Map-Pro to give a flame temperature of approx 2958 C. Size of flame can be increased for brazing larger joints by exchanging the lightweight nozzle for a larger one.

Contents:

- Durable Lightweight Carry Stand
- 2Ltr Oxygen Regulator
- Map gas regulator with contents dial
- Flashback Arrestors (on hoses)
- 3Mtr Oxy / Fuel Hose
- Lightweight Nozzle x2
- Pepperpot Heating Nozzle
- Map Gas Cylinder
- 2 Gauge Oxygen Regulator
- Brazing Torch & Mixer
- Triple Spark Lighter

Code: BR199

The kit comes complete with an oxygen cylinder which, when empty can be exchanged by a local air con/ refrigeration wholesaler for a full cylinder.

Technical Information:

Main Uses	Ideal for Brazing/ Soldering and Welding
Gases Used	Oxygen
Gases Used	Mapp/ Pro
Flame Temperature	Approx. 3000 °C
Weight	Approx. 19 Kg with full cylinder
